When your arms are full of cargo, the last thing you want to do is set it all down just to open the liftgate, then pick it all back up to load it in. By remotely opening and closing, power liftgate lets you skip straight to the loading. It also eliminates the awkward stretch to reach up for the liftgate to close it. Load and go with power open and close liftgate. Keyfob engine start control - Get an early start. Remotely start your vehicle's engine from the key fob, ensuring your ride is ready to go when you get in. Now you can stay comfortable inside while your vehicle gets comfortable outside, thanks to Keyfob engine start control.Safety and Security Blind spot warning - Protect your blind side. You checked the mirror, looked over your shoulder and still nearly collided with the car next to you. Blind spot warning alerts you to the presence of a vehicle to your sides or rear so you know if you're about to make an unsafe lane change. Replace fear and uncertainty with confidence and safety with blind spot warning.Technology and Telematics Wireless connectivity - Strike the cord. Wireless technology makes it easy to place calls without having to fumble with your phone. It integrates your device with the system inside your vehicle for hands-free access. Keep connected and keep your hands on the wheel with wireless connectivity.
